

REHMAN NAVEED

Web Developer

About Me

I'm a Full Stack Developer. I had started coding since 2020 and become a professional developer in 2022. I have great interest in coding, logic building and Requirements engineering. In short logics inspire me. I had worked in Xpert tech and developed a bundle of web application. I had believe in myself if I want to do something then I'll complete it. I'm very hardworking.
